We **buy** auto parts

We are a Russian private-label owner — we order from factories under our own brand.

12,000 SKU on sale → 20,000 this year

8,000 SKU short — that is why we come to factories directly

- ① We place the order, pay and clear customs ourselves; goods go to our own warehouse
- ② EAC certification, import clearance, warehousing and sales in Russia are all on us
